

UPDATED COVID-19 Message from Grimm + Parker:

We are navigating uncertain waters, and we know you are too.

Melanie Hennigan AIA, LEED AP, NCARB
President & CEO

A WBENC CERTIFIED BUSINESS

The COVID-19 pandemic has forever changed how we work, live and play, and we as humans need to learn how to adapt to these uncertain times. Grimm + Parker has been taking the proper steps to ensure the safety and well-being of its employees, clients, and consultants. During this challenging time, we are honored to be working with clients to deliver important projects that give back to our communities.

Grimm + Parker is “open for business” but not in the usual way. Our staff continues to work diligently on your projects remotely from our homes. G+P business offices are closed to outside visitors right now, as we only have in-house G+P personnel working at our three locations. We are taking extra safety precautions with social distancing and we have not begun a full return to the office. We are currently conducting client meetings, while making CA visits to job sites. Please call your Project Manager to coordinate directly with your design team with any new projects or meetings. We are looking forward to later this year when we do hope to return to the office. In the meantime, we thank you - our clients - for the opportunity to serve and support you on so many important and exciting projects.

Stay healthy and stay safe!
